Introductory note

This introductory note does not form a part of the notice.

Under the Environmental Permitting (England & Wales) Regulations 2010 (schedule 5, part 1, paragraph 19) a variation may comprise a consolidated permit reflecting the variations and a notice specifying the variations included in that consolidated permit.

Schedule 1 of the notice specifies the conditions that have been varied and schedule 2 comprises a consolidated permit which reflects the variations being made. All the conditions of the permit have been varied and are subject to the right of appeal.

The variation EPR/BB3107SC/V003 updates the permit to modern conditions and adds the new activities of hazardous waste storage (liquid waste), waste wood storage and treatment, hazardous WEEE storage and non hazardous WEEE Storage and treatment. These changes have been issued as a consolidated permit that also updates all previous conditions to modern template conditions.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
